Design trifft Langlebigkeit.

Wer bei der Wahl seiner Haustüre nicht auf zeitlose Eleganz, gepaart mit Pflegefreundlichkeit, bester Verarbeitung und höchster Materialqualität verzichten will, entscheidet sich für Holz/ALU-Türen mit dem ALU-Schutzsystem GS Premium®.

Die innovative Aluminium-Schale wird außen auf die Türe aufgesetzt und schützt optimal vor Sonne, Wind und Wetter – ganz ohne zusätzlichen Pflegeaufwand. Und sollte Ihr Haus an einer im Winter stark gesalzenen Straße oder in Meeresnähe stehen, garantiert auch unsere spezielle Oberflächenbehandlung GS Seaside Protect® unvergängliche Schönheit ein ganzes Türenleben lang.

Design combined with longevity

Anyone looking for front doors that provide timeless elegance combined with easy care and maintenance properties, top quality workmanship and high-grade materials, should choose wooden/aluminium doors with the GS Premium® aluminium protection system.

The innovative aluminium shell is applied to the door to provide ideal protection against exposure to the sun, wind and weather – no additional care and maintenance work required. And, if your house should be close to the seaside, or perhaps a road that is heavily salted in winter, our special GS Seaside Protect® surface treatment guarantees everlasting beauty throughout the entire lifespan of your door.

Il design incontra la durevolezza.

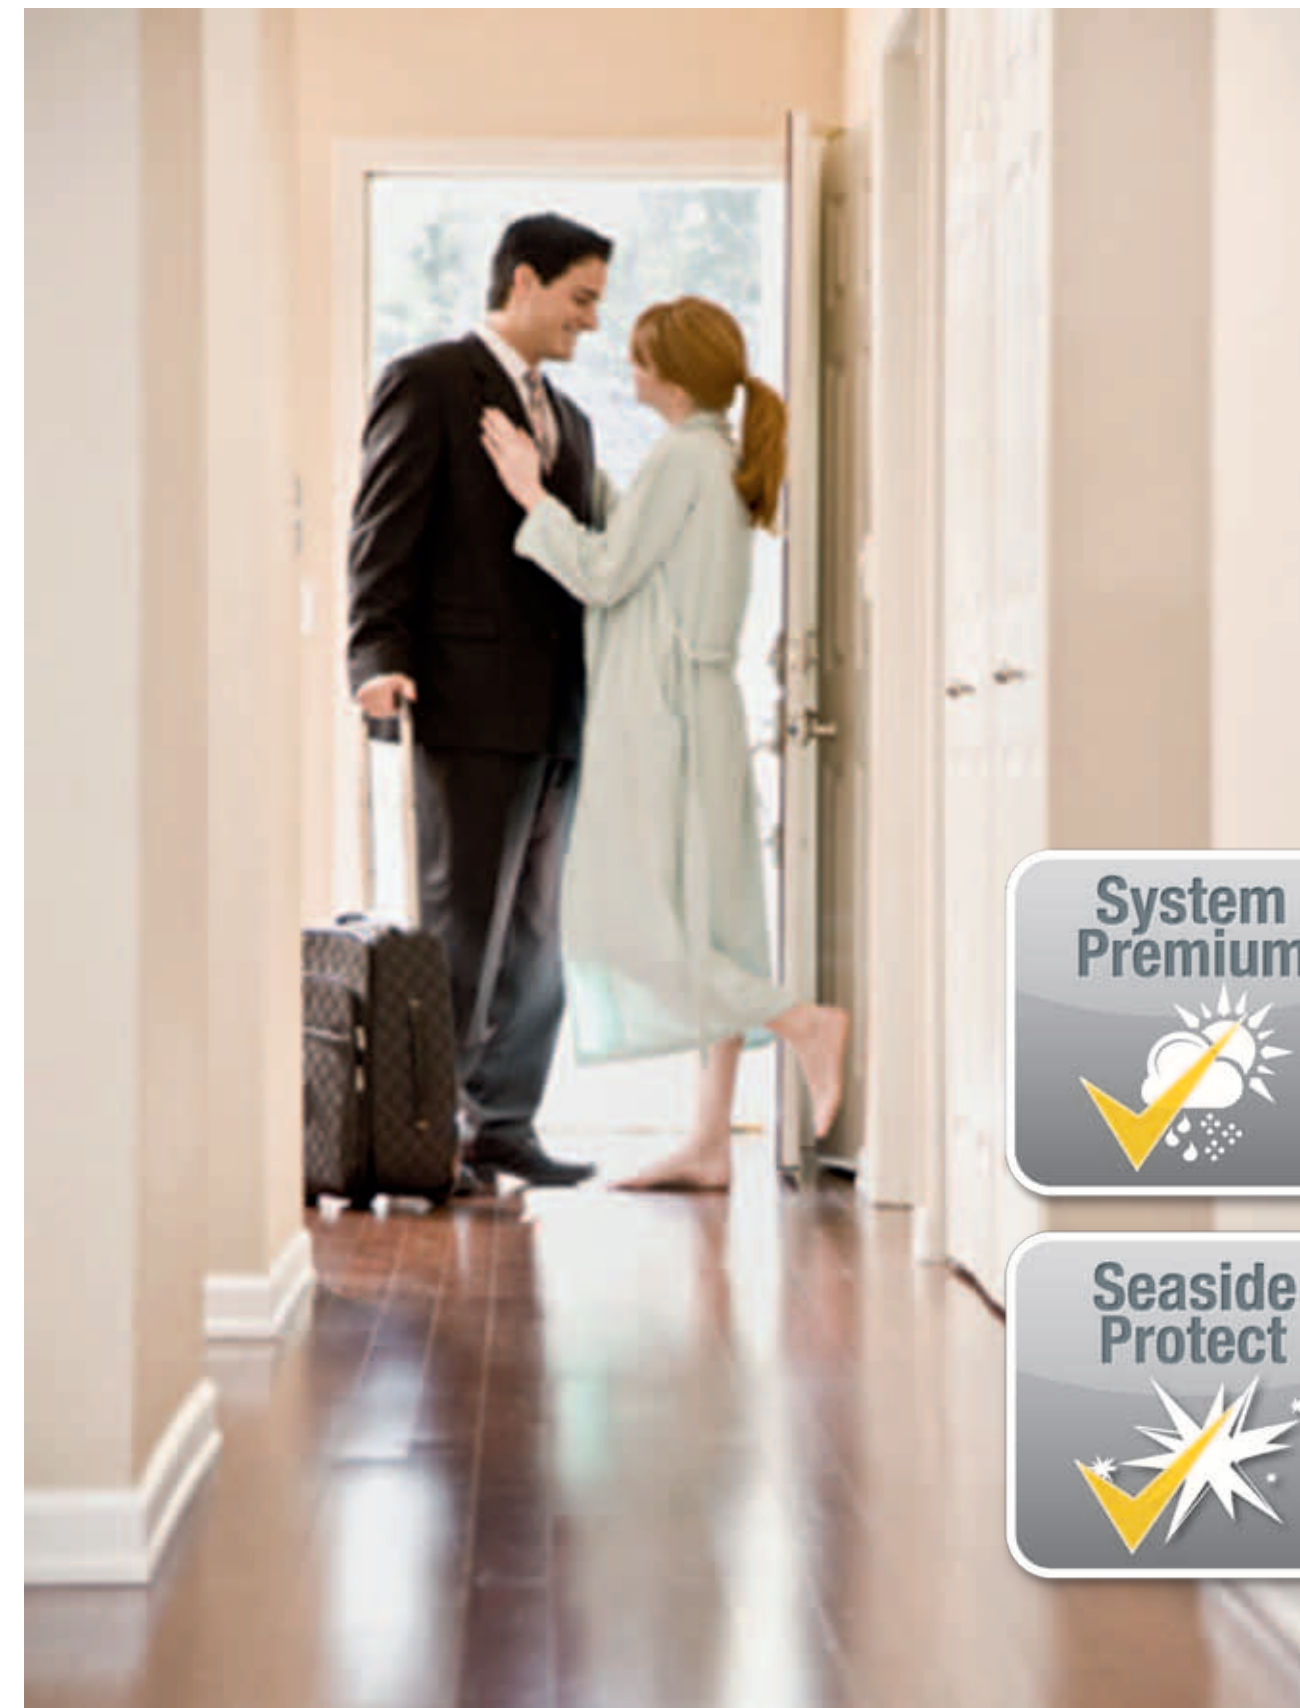

Chi nella scelta delle porte della propria casa non intende rinunciare all'eleganza senza tempo abbinata alla facilità di manutenzione, alla migliore lavorazione e alla massima qualità dei materiali sceglie senz'altro le porte in legno e alluminio dotate del sistema di protezione dell'alluminio GS Premium®.

L'innovativo rivestimento in alluminio viene applicato esternamente sulla porta e protegge in maniera ottimale da sole, vento e agenti atmosferici - il tutto senza necessità di manutenzione supplementare. E se la vostra porta si trovasse su una strada che durante l'inverno viene cosparsa intensamente con sale oppure nei pressi del mare, il nostro speciale trattamento della superficie GS Seaside Protect® garantisce un'intramontabile bellezza per l'intera durata della porta.

Design et longévité réunis.

Si, lors du choix de votre porte de maison, vous souhaitez une élégance intemporelle sans renoncer à un entretien facile tout en pouvant compter sur une fabrication de qualité et sur des matériaux haut de gamme, alors les portes en bois / aluminium avec le système de protection en aluminium GS Premium® sont exactement ce qu'il vous faut.

L'enveloppe innovante en aluminium protège, de manière optimale, les portes à l'extérieur du soleil, du vent et des intempéries - sans entretien supplémentaire. Et si votre maison se trouve au bord de la mer ou, en hiver, au bord d'une route souvent salée, notre traitement de surface spécial GS Seaside Protect® vous garantit une beauté durable pendant toute la durée de vie de votre porte.
